I. PUBLIC HEARING – 7:00 p.m.

1. Variance – Area
Case No. 2026-004

Guyer, Jesse
9354 River Road

The Public Hearing opened at 7:00 p.m.

The Zoning Board of Appeals conducted a public hearing on an application submitted by Jesse Guyer, owner of 9354 River Road, Phoenix, New York, requesting two side yard setback Area Variances to allow the construction of an enclosed structure over an existing swimming pool.

Mr. Guyer explained that the pool is being installed in the location of the former pool and that he wishes to enclose it for year-round use. The proposed rectangular pool enclosure extends slightly into the required 15-foot side yard setback due to the building's design. He noted that the enclosure includes a small lean-to area for storage of pool equipment and supplies.

During the Board's review, members clarified the dimensions of the requested variances. The proposal required two side yard setback variances of approximately 6.5 feet and 3.5 feet, affecting two corners of the structure. Mr. Guyer confirmed that all construction and excavation would remain entirely on his property.

The applicant stated that adjoining property owners had submitted a letter indicating they had no objection to the request. During the public hearing, one attendee raised concerns regarding a nearby pole barn and its proximity to a neighboring property. The Board clarified that the pole barn was not the subject of the public hearing and that the current application pertained only to the proposed pool enclosure. Mr. Guyer further explained that the pole barn complies with applicable setback requirements.

FINDINGS:

The use is not substantial and there will not be an adverse impact on the physical and environmental conditions.
