Mr. Duger explained that the proposed subdivision and zone change are part of his family's long-term succession and estate planning arrangements. It was further noted that the Town had received all necessary documentation, recommendations from the applicable boards had been accepted, and the State Environmental Quality Review (SEQR) process had been completed, with the determination that the proposed action would not result in any significant adverse environmental impacts. Additional discussion took place regarding the proposed split zoning of the property and its potential implications.
