Attention Members of the Town Board,

I am writing to express my support for Brett Maring's proposed zoning change at 9086 Oswego Road.

As a local business owner, I understand the importance of having a community that supports small businesses and encourages their growth. I believe businesses like White Glove Dumpster Rentals are an asset to our area, providing valuable services, creating jobs, and contributing to our local economy.

With several properties in the immediate area already zoned for General Business, I believe this request is reasonable and consistent with the surrounding area. From what I understand, the concerns raised regarding traffic, noise, and property use have been addressed with proposed solutions that can be further evaluated through the appropriate approval process.

I also believe it is important that this decision be based on the facts and merits of the application, rather than personal disagreements or accusations. Business owners who are willing to work with the Town to address concerns should be given a fair opportunity to succeed.

I encourage the Board to support this zoning change and allow a local business the opportunity to continue growing in our community.

Thank you for your time and consideration.

Lindsay Amos

November 13, 2026

Supervisor Kevin Rode and Members of the Town Board
Town of Lysander
8220 Loop Road
Baldwinsville, NY 13027

Re: Zone change application for 9086 Oswego Road (Tax Map No. 024.-01-49.1), Agricultural to General Business

Dear Supervisor Rode and Members of the Town Board:

I write in strong support of Brett Maring's application to rezone 9086 Oswego Road and to object to the repeated personal attacks, intimidation, and slanderous accusations directed at him during Town proceedings.

At the September 3 meeting, a speaker described Mr. Maring's operation as "not a legit business," suggested employees were being paid "under the table," and warned that "it's going to get ugly before all said and done." At the November 5 hearing, Mr. Maring was called a "freaking buffoon" and repeatedly a "skunk," accompanied by accusations that he lied to Town officials and concealed unlawful activity. These are serious personal and business accusations, not established land-use findings. Such slanderous attacks have no place in determining a zoning classification.

The Town's Citizens Comments Rules of Procedure require professional conduct. Although the Supervisor directed speakers back to the zoning question and warned one that he could be removed, personal insults and accusations continued. The Board must consistently uphold its rules and protect the integrity of these proceedings. Mr. Maring deserves an apology from those responsible and from the Board for allowing the attacks to continue despite those warnings. His restraint and willingness to address legitimate concerns deserve recognition.

The Board should decide this application on the Town's zoning standards and the documented land-use record—not on personal animosity.

The applicable zoning standard

The Town itself has recognized the suitability of General Business zoning at this location. At the September 3 meeting, the Supervisor identified Stump Busters, a business engaged in similar activities within a General Business district, and pointed to three General Business parcels directly across Route 48. The Town engineer described the General Business provisions for offices and wholesale or warehouse establishments upon controlled site review. Mr. Maring proposes office, warehouse, and equipment-storage functions on 30.86 acres with more than 600 feet of State Route 48 frontage. The requested zoning is consistent with the commercial pattern the Town has already identified.
